

A New Hope

SUNRISE - A NEW HOPE

Thinking outside the box. Consider the possibilities. We send House Speaker Nancy Pelosi (San Francisco Congresswoman) and Barbara (call me Senator) Boxer on a mission of peace to the Taliban.

A win-win situation. If the two of them will do for the Taliban what they have done for San Francisco, the State of California and the United States, the Taliban will be financially ruined as well as militarily weakened and we win. If the Taliban decide to keep them and turn them into obedient little Taliban women - we win.

If this works, as I believe it will, we can send additional members of Congress (I have a list) on missions to other potential enemy nations to implement the same kind of "stimulus" plans they have imposed here. Maybe Harry Reid, Barney Frank and Charlie Rangel can do in Iran what they have done here in America. Turn a recession into a financial disaster. "Stimulate" unemployment and massive debt that Iran's children and grandchildren would have to pay. And, while it can be argued what we win in such a scenario, at least we would be rid of these members of Congress who seem determined to destroy our own country.

Just a little fun daydreaming.
