

BLM..... TIME FOR A POST MORTEM?

To be clear from the beginning, I believe Black Lives Matter. Not an issue for me. What is an issue is the integrity of the Black Lives Matter Organization.

**Our current situation
explained.....**

Soros - Obama - Biden - Harris

From an internet posting

What connection does the Black Lives Matter Organization have to do with the above?

It's all about manipulation.

Once the Black Lives Matter Organizers, including their Marxist Leader manipulated our government and major corporations into meeting their demands and contributing Billions of dollars into their "Foundation". They have since, for the most part, seemed to have just faded into the shadows.

Oh, there are a few die-hards showing up as supporters for mostly George Soros funded ANTIFA riots and other destruction in places like Portland, Seattle, Milwaukee etc. for public

demonstrations, damage and other devastation.

But it seems that once the founder(s) acquired their palatial homes, things have quieted down. Can anyone point to what changes the now well funded BLM organization has made in the tattered lives of the residents of the hell hole ghettos of Chicago or other major inner city slums?

It seems to happen over and over and we never learn. Huge amounts of dollars are either coerced or pledged with good intentions by government and major donors, such as corporations, for what is universally accepted as good causes and yet very little of that money produces noticeable results.

Some years ago Jesse Jackson and his "Rainbow Push Coalition" extorted Millions and Millions of dollars from corporations with very little in the way of tangible results.

People like Bill and Hillary Clinton have turned massive charitable spending into an art form for enriching themselves.

When Port-Au-Prince in Haiti was devastated by a massive 7.0 Earthquake in 1993 over 13 Billion Dollars was pledged to help rebuild the City and surrounding area. Several Billion of these dollars were "flushed", and I use the word intentionally, through the Clinton Foundation to rebuild housing and infrastructure in Port-Au-Prince. Very little housing was rebuilt and the infrastructure remains a shambles to this day but the money disappeared into the "black hole" of the Clinton Foundation. One can't help but wonder how many of these dollars ended up, directly or in-directly in the "Pleasure Palaces" of folks like Jeffrey Epstein?

So where have all the Billions of dollars donated to BLM gone? Or did the Organization just use the riots, burnings and threats of violence as a way to manipulate huge amounts of cash into their coffers for the private use of the leaders?

Your government does much the same thing. And government does it on steroids. A large amount of those dollars that you work so hard for and must spend for your daily living is extorted from you in seen and unseen taxes. An unforgiveable amount of this ends up in the pockets of the "Ruling Class", Bureaucrats and their supporters while you are taking out a second mortgage on your over taxed home to buy a tank of over taxed gasoline for your over taxed automobile so you can get to your job and pay more taxes.

Criminals hold you up with a gun. Organizations like BLM, The Clinton Foundation and Government do it by manipulation and corruption, even coerced authority. As the saying goes: You can put lipstick on a pig but it is still a pig.
