

## **Defining Insanity**

graphic: [sciencemuseum.org.uk](http://sciencemuseum.org.uk)

**The above graphic is purportedly an illustration of a Victorian era Insane Asylum but I suspect it was secretly taken from sketches of our U S Congress and State Legislatures at work.**

**Recently I was watching an episode of "Tucker Carlson Tonight" and he did a monologue on a new bill working it's way through the House of Representatives. The Bill is titled:**

**New Way Forward Act - HR5383**

**Following are excerpts from Tucker's monologue - the entire text is too long to reproduce here but is available online ("Tucker Carlson Tonight" -Feb. 6, 2020), as is a copy of the pending House of Representatives Bill.**

**Quotes & Excerpts from Tucker Carlson's Monologue**

**"The legislation is sponsored by 44 House Democrats, including Reps. Ilhan Omar of Minnesota and Alexandria Ocasio-Cortez of New York. At roughly 4,400 words, it's almost exactly as long as the U.S. Constitution."**

**"A document produced by Democrats to promote the bill says: "Convictions ... should not lead to deportation.""**

**"Keep in mind, we're not talking about convictions for double parking. The bill targets felony convictions – serious crimes that send you to prison for years."**

**"But if this bill passes the House and Senate and is signed into law by the president, there will no longer be any crimes that automatically require deportation. None."**

**"The bill also decriminalizes illegal entry into America, even by those previously deported."**

**"But believe it or not, we saved the nuttiest part for last. What could be more destructive than changing U.S. law, specifically to allow rapists, child molesters, and drug dealers to stay in America? How about this: Using taxpayer money to bring deported criminals back into America."**

**"The Department of Homeland Security must spend taxpayer dollars transporting convicted criminal illegal aliens into the United States. Who will be eligible for these free flights? Tens of thousands of people kicked out of this country for all kinds of crimes. Sexual abuse. Robbery. Assault. Drug trafficking, weapons trafficking, human trafficking."**

**End of quotes/excerpts from Tucker Carlson**

**My first reaction to the above was that this had to be some kind of a spoof piece or satire. The U.S. Congress, or for that matter any State Legislature would have to be insane to put forth such legislation and if it did, the legislation would have no chance of passing or ever becoming law?**

**OR WOULD IT?**

## **Stop Pulling the Wagon**

Are You Tired Of Government Lies, Hypocrisy and Corruption?

---

**Not that many years ago, most of us would never have believed that California, New York and several other states would have been insane enough to become Sanctuaries for criminals from all over the world to migrate here with no questions asked, no paperwork or background checks and no threat of deportation or co-operation with other state or federal agencies whose job it is to protect us. But they did and are doing it. They are also making them eligible for public assistance, including "free" medical care, even drivers licenses.**

**New York has passed, and similar legislation is pending in California, a law for "No Bail" release of those involved in serious crimes like Bank Robbery or Criminal Assault. There is a documented case of a Bank Robber being released, without bail pending trial, and within 24 hours he committed another bank robbery. Who would have guessed it?**

**In another case in the news, two members of the murderous MS 13 Gang who had seriously assaulted someone were released without bail. Another new New York law requires Prosecutors to provide Criminal Defense Attorneys with the names and addresses of Witnesses. You guessed it. The witness to the crime was beaten to death by the "no bail" MS 13 gang members.**

**California, and some other states have decriminalized "petty" theft. Steal less than \$950 in goods and the most you will get is a misdemeanor citation. There are documented cases of thieves using calculators while "shoplifting" to make sure they stay within the \$950 "budget". There are numerous reports that in cities like San Francisco the cops are not even writing citations for stealing because "those committing the crimes don't show up in court" and are not being pursued by overworked law enforcement.**

**California is also a state where prospective employers can be fined, sued or even jailed if they ask employment applicants if they are here legally or if they have a criminal history. They can also be sued in many cases by customers or clients if they do not disclose if one of their employee's has a criminal history.**

**Having written the above it is easy to question the sanity of our government on both a Federal and State level. They seem bent on rewarding behavior that is criminal in the eyes of most reasoning citizens.**

**Bob Bandy - February 2020**
