

## **ERIC HOLDER - IN GOOD COMPANY**

Lets see if I have this straight. Eric Holder, the Attorney General of the United States, claims that until a few weeks ago he knew nothing about the "Fast and Furious" Gun Running Operation orchestrated out of the Justice Department of which he is the head. He claims this even after it being documented that he was kept informed by people within "his" own Justice Department.

That leaves us with one of three possibilities:

- (1) He is not telling the truth.
- (2) He is not competent to be Attorney General.
- (3) He is not telling the truth and he is incompetent.

At least he is surrounded by "good company". Washington D.C. is the Capitol of lies, incompetence and corruption. A political Trifecta.

How else do you explain the 15 Trillion Dollars in debt and the continuing destruction of the Free Enterprise System which was once the foundation of our great nation.

The sad truth is that this same incompetence and systemic lies have spread to many, if not most, of our states, counties and cities. We now find ourselves surrounded by leaders who will not tell us the truth and who continue to prove their incompetence by their inability to balance the public checkbook.
