**Clowns, Criminals and Lunatics.**

**So hard to choose only one example with so many to choose from.**

**The Only Thing Necessary for the Triumph of Evil is that Good Men do Nothing.**

quote credited to Edmund Burke

**I have a growing fear of being enslaved by a corrupt ruling class of demigods driven by ambition and a thirst for power.**

**In addition we are seeing negation of our Constitutional rights through massive government overreach in the supposed cause of protecting the public health. Governors, Mayors and Federal Agencies are acting with Dictatorial edicts which we are not even supposed to question.**

**We have also learned of abuse of power and corruption that occurred at the highest levels of the FBI, the Justice Department, the Central Intelligence Agency and other related government agencies. The "Deep State" at its worst.**

**Too many elected politicians, and often un-elected "public servants", demonstrate they are little more than Clowns, Criminals or Lunatics.**

**These folks, who consider themselves superior, have also made themselves immune from prosecution for actions they would put us in jail for if we acted in the same way.**

**There are good people in government but I no longer have any faith or trust in most agencies because of the "bad apples", too often "at the top" of the political food chain, who have politicized everything because of their political parties ambitions.**

**I would not even consider answering questions from the FBI without a good lawyer present and duct tape firmly in place over my mouth.**

**The mainstream "Tabloid" Media cannot be trusted. They have become no more than Propaganda Lemmings for the political agenda of their chosen party. You can get more accurate reporting from "The Enquirer" and other "Supermarket Tabloids".**

**Elected officials in places of power that are willing to bankrupt, even destroy our country if it will achieve their desired goal of turning the United States into Cuba, Venezuela or some other Socialist "Paradise".**

**Too many politicians who have come to view this Coronavirus Covid-19 not as a Pandemic threatening the lives of all us but as an opportunity to pursue their own political agenda. "Never let a crisis go to waste".**

**Sad to say, I have lost faith in our government. I wish it were not so. Lie to me once, shame on**
