

Jerry Nadler - A Legend In His Own Mind

Congressman Jerrold "Jerry" Nadler

"Jerry" Nadler is the Congressional Representative for the 10th district of New York in the U.S. House of Representatives. He has served in this position since 1992. He is currently serving as Chairman of the House Judiciary Committee.

On his best days he is a clown and a buffoon. But, that is on his best days. Most days he is just a frustrated, angry, incompetent Party Line Drone.

He was a member of the consortium in Congress that passed a law that forbids the release of Federal Grand Jury Testimony. The original purpose of this law was to protect Bill Clinton from unflattering comments made in Grand Jury testimony during the Clinton Impeachment Hearings, This law requires the "redaction" of such material. It is a Federal Crime to violate this law.

"Jerry" is now the architect of Contempt of Congress proceedings to hold United States Attorney General William Barr in Contempt of Congress for refusing to release un-redacted copies of Federal Grand Jury testimony in the Robert Mueller Report in direct violation of a law that he, Jerry Nadler, championed and helped pass.

The irony is that if Attorney General Barr acquiesced to Congressman Nadler's demands, he would be in violation of the law and subject to Impeachment himself for violating his oath of office to enforce the law.

You can't make this kind of idiocy up.

Congressman Nadler may be a Legend in his own mind but he is also a prime candidate for my "Hall of Shame - Clowns, Criminals and Lunatics in Congress".
