

New Pre-Crime Conviction Plan - Just In Case

The Biden Administration recently announced they were forming a new department within the Justice Department. A "Pre-Crime Investigation Bureau". The goal of this new agency is to identify, investigate and monitor individuals and groups who might engage in activities that would threaten the tenure of those in power.

A sort of Americanized version of the KGB or other "Secret Police" type internal "Spy Network". North Korea, eat your heart out. In this way they can target and eliminate individuals and groups that don't agree with their Utopian Progressive Movement before those individuals or groups can act.

They will be "making a list and checking it twice" to make sure you and I don't wobble from the official government dogma.

For example: Were you ever a Donald Trump supporter? You just made the list. Were you now or ever a neighbor of a Donald Trump supporter? Bingo! Were you ever at a Trump Rally? Gotcha!

Ever been to one of those Pro-Second Amendment Rally's? Home run, move to the top of the list.

Are you a supporter of requiring voters to provide identification at the polling booth? That will make you an instant target of investigation.

Are you one of those that believe "Critical Race Theory" should not be "force fed" to our children, is divisive and in fact a textbook definition of Racism in and of itself? Expect a visit from a "Pre-Crime SWAT Team".

If you are suspected of any of the above, or numerous other Anti-Progressive - dare I say Marxist - violations of the ruling Party's ideology, you can expect a very thorough "anal" examination of your life and movements.

Remember, "Big Brother" has their spy's, cameras and microphones everywhere, including in your home. Is that really just a regular mirror or is there a camera or spy behind it? Is there a microphone in that flower pot? Is that a Sparrow on the window sill or one of those new drones?

Stop Pulling the Wagon

Are You Tired Of Government Lies, Hypocrisy and Corruption?

Had a feud with relative or neighbor who just might share one of your "sins" with some "friendly" government agent or agency?

You see, now you no longer need to commit a crime to be investigated or prosecuted. Government plans to "nip it in the bud" by taking you out while its still in the Pre-Crime state. You may not have committed that crime but "Big Brother" knows you will commit a crime, you just don't know it yet.

Of course the Biden Administration is only doing all this for your own good.

Feel better now? Maybe you might want to share this good news with a neighbor or friend.

Or, you or they can just Google: Biden Pre-Crime

Wait! Is that a Bull-horn I hear out front?
