

PITCHFORKS AND TORCHES TIME?

I ask the question metaphorically as I do not advocate violence.

Still, what does the citizenry do when government will not listen to the clear voice of the people?

Federally run and mandated Healthcare - We don't want it!

Amnesty for illegal aliens - No!

Porous and open borders - No!

Bailouts for poorly run Corporations and States -No!

Bankrupting our children and grandchildren with deficit spending - No!

Micro-manage every aspect of our lives - No!

Tax everything and every part of my daily life - No!

Leave me alone, get out of my way and stay out of my wallet - YES!

Are these people so self focused on their own failed ideology and so oblivious to the will of the American people? Have they no eyes? Have they no ears? The American people are fast approaching the point of open rebellion. The anger is building day by day. Revolution is in the wind. They have taken our America and trashed it.

Pray that it will be only a peaceful rebellion and confined to the ballot box.

.....Bob
