

Pogo Was Right

I hope I am wrong but am afraid I am not.

It seems to me that our Congress and Administration is in the process of doing something Osama Bin Laden tried, but failed to do when he planned the destruction of the Twin Towers of the World Trade Center. One of Bin Laden's major goals was to severely damage, and he hoped, destroy our economy.

Our Government (Administration and Congress) is now exploding our national debt by spending something like one hundred and eighty five percent of revenues. In addition they are in an ongoing campaign to destroy what is left of the economy through Government run Health Care, Cap and Trade and other wasteful "Boondoggles".

They are running up a crushing debt that our children and grandchildren will have to face as either ruinous taxation or hyper-inflation or both.

As POGO said: WE HAVE MET THE ENEMY AND HE IS US. (Walt Kelly)

Osama Bin Laden just might be laughing himself silly in a cave somewhere. We are doing it to ourselves!

Please tell me I am wrong!
