**Rep. Alexandria Ocasio-Cortez (NY) Rep. Ayanna Pressley (MA)**

**Rep. Ilhan Omar (Mn) and Rep. Rashida Tlaib (MI)**

**Designated by the Media as "The Squad" and in my opinion more appropriately referred to by Senator John Kennedy of Louisiana as "The Four Horse-women of the Apocalypse".**

**If their agenda and rhetoric was not so hate filled, angry and anti-American, this group of four could almost be pitied and looked upon as some kind of failed third rate comedy routine from a skid row night club.**

**Fact is, they are also dangerous with a radical agenda that condones violence and racial division on the path to open borders and unfettered Socialism. Perhaps they would feel more at home in Cuba or Venezuela.**

**If anyone calls them to task for their obvious lies and hate speech they immediately fall back on the tired cry of "Racism" when racism has nothing to do with the subject under consideration.**

**Congresswomen, the subject at hand is Sovereignty and whether a nation has the right to control its own borders. You can agree or disagree with the concept of Sovereignty but it has nothing to do with racism.**

**Perhaps the word Sovereignty has too many syllables in it for you to understand or you just don't have a valid argument against it, so you choose to just cry "Racism" as a fall back position for any subject you lack the intellectual capacity to discuss rationally.**

**Republicans can perhaps take some small solace that these Congresswomen are in the process of destroying the more traditional Democratic Party but it is small comfort indeed when one considers the damage they are attempting to do to the America most of us love and treasure.**

**It is a question to me why the media gives so much airtime to these practitioners of hate and division. They have no credible history of real public service to others.**

**I look forward to the day when they are yesterdays forgotten news and retire to the dustbin of failed politicians. They deserve no better.**

**Bob Bandy - July 2019**
