

What Happened?

EVER WONDER WHAT HAS HAPPENED TO "YOUR" WORLD?

I have not written anything for a while. In some ways I feel a little like Rip Van Winkle awakening from a long sleep wondering where I am and what has happened to the happy and ordered world I grew up in.

It seems to me that our lives are now ruled by a consortium of Clowns, Criminals and Lunatics.

A journey through a looking glass into a world where the Lords of Darkness have stolen power and are creating a society where no good deed will go unpunished.

If the United States were the Milky Way Galaxy, then Washington D.C. would be the gravitational heart of that galaxy.

At the heart of the Milky Way Galaxy there resides a Super-Massive Black Hole. In space lingo a Black Hole is the collapsed heart of a large star that has compressed into a point where gravity is so intense that everything, including other stars and star stuff, is sucked in and nothing of any recognized value, not even light, can escape.

Washington D.C. is like that. A place where our tax dollars get sucked in and nothing of any value can possibly escape.

You know why? Its because the Clowns, Criminals and Lunatics are busy stirring a big cauldron to turn our tax dollars into a system of Food Stamps and Flat Screen TV's to keep the masses complacent.

The Romans first introduced the concept of Bread and Circuses to keep the rabble quiet and content. The Dark Lords in Washington have only copied them.

What? Did you expect something creative and original to come out of Washington D.C. ? Have you forgotten this is the place where 98% of our political leaders give the rest a bad name?
